Van Layout Options for Pre-Built Systems

Pre-built van systems come in three layouts. Use this guide to compare them and check that you have the space before you order. All sizes are the clear space your system needs, in inches.

LAYOUT	SPACE NEEDED	BEST FOR
Bench Seat	68" W × 19" H × 18" D Mini: 48" W × 19" H × 18" D	Building the system into a bench or seat base along the van wall, with batteries in front of the board
Wall Mount	Depends on the system, see page 2	Mounting the system upright on a wall or inside a cabinet
Featherbuilt Enclosure	57" W × 34" H × 16" D	Ford Transit 148" wheelbase vans that want a finished, ready-made cabinet

Bench Seat

68" W × 19" H × 18" D Mini: 48" W × 19" H × 18" D

The system is built low and wide so it can sit under a bench seat or along the wall. The side wings sit 18" out from the wall and need **¾" plywood or better**.

Have your own cabinet or upfitter enclosure?

We can build your system into it. Email **info@explorist.life** before you order so we can confirm it will work.

- Ship your cabinet to our shop in **Redmond, OR**.
- The extra labor to build into your cabinet is billed separately.
- The finished system ships by freight, so it has to be **under 96"** long.

Wall Mount

The system is built upright on a backer board that mounts to a wall or the inside of a cabinet. Mount it to **¾" plywood or better**. The space you need depends on your system.
